Middos Mentions!

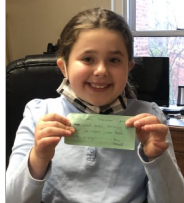

Aron Dov walked past the toy shelf and sat down quietly in the library, even though he wanted to play!

Liyoh really wanted a toy, but she was so kind and let someone else play with it!

Sara and Nava were very honest while banking "owl dollars" and made sure to tell the teacher which dollars were theirs and which belonged to their friends. Great honesty!

Ahuva and Leora were "mevater" to wait until the next day to get ice cream when there wasn't enough!

Important COVID-19 Updates ...

First, since so many people will be traveling over the upcoming Thanksgiving/Chanuka Break, we will be testing all those who travel outside of Rochester immediately upon their return to school on Thursday, December 2, 2021. Since so many families will be traveling, we will assume that you have traveled outside of Rochester (and will test your children upon their return) unless you email the office that you have remained in Rochester.

Also, the Monroe County Health Department is now permitting schools to use the Test to Stay method! That is great news, because that means, effective immediately, students who are exposed to someone who tests positive can come to school each day as long as they are tested and remain negative. Please see attached DHR policy and documentation for additional details.

Finally, the Monroe County Health Department has provided us, free of charge, with a new Rapid PCR machine (MesaBiotech Accula Dock), so we now have the capability to do both rapid PCR and Antigen tests.
