## From the Principal

Dr. Lea E. Goldstein

Every once in a while, an opportunity presents itself that can be life-changing. As we near 2024, in a society where we, our children, and our spouses are surrounded by an unremitting assault on their senses and morality, we must educate ourselves and take a stand. As each day goes by, are we aware of the latest innovations and challenges presented by technological advances?

This Sunday night, the Symposium will address halachic and hashkafic approaches towards technology use, its tremendous social, psychological and behavioral impacts, how to use technology safely and responsibly, what devices need protection, and offer practical, ready-to-use solutions.

Strangely, if evil people tried to break into our homes and attack our families, we would call 911, and do everything possible to defend ourselves and neutralize the threat, including installing security systems. Yet, many families unknowingly welcome even worse, more damaging, pervasive evil into their homes through their devices, and their families are slowly and silently victimized and damaged.

For the safety and sanctity of your children, we are asking EVERY SINGLE DHR PARENT TO ATTEND Sunday night's event. Flyer is attached with more details.

## Fun & Learning at DHR

## Celebrating fathers & successful shiurim

Rabbi Roness and his MSB class had a great time as they reviewed and celebrated with a "Chinese Auction" and some well-earned treats! On the Thursday before Chanuka, the Rosh Hayeshiva fathered all three Gemara Shiurim and was very impressed!
