

DHR's Annual Science Fair

We were thrilled to present DHR's Annual Science Fair. It was an exciting and challenging undertaking, yet it yielded results of which we are proud. This year, students completed all of their research, writing and displays at school, almost independently, with minimal teacher support and parental involvement.

Thank you to all of our teachers and students who have worked so hard to make DHR's Science Fair a success. We would like to thank Dr. Linda Podewils, our middle school science teacher and Science Fair coordinator, and our patient judges, Mr. Rich Caniglia, Ms. Elizabeth Maurer, Mr. Jerry Stoll & Mr. Thomas Podewils. Also, the 8th grade girls would like to thank those who helped organize the Science Fair Dinner: Mrs. Sarah Malkie Max, Mr. Mordechai Rennert, Mr. Mordechai Winograd, and Mrs. Bracha London.

3rd Grade Field Trip

On Tuesday, after completing a unit of study on American history, Mrs. Stoll's 3rd graders visited the Genesee Country Village and Museum. This authentic 19th century village and its historic buildings came to life for the class through their encounters with the one room schoolhouse master, the town potter, the pioneer women, a woodsman, the octagon house mistress and many more village characters. Lots of fun and learning!

Bus Safety Drill

This Thursday, the students riding Brighton buses practiced emergency/fire drills. They did a great job safely exiting the buses and listening to instructions!

Calendar

Monday, June 6th: Grades 4 & 8 Science Written NY State Exam.

Tuesday, June 7th: Teacher Appreciation Picnic, 11:30am.

Friday, June 17th: Kindergarten Graduation & Chumash Presentation, 11am.
